

DVE STRECHY - The second specified edition of DVE STRECHY - the fair for real estates, design, construction and investments

Published at: 28-03-2005

International Fair for Real Estates, Design, Construction and Investments

The exhibition is arranged to answer the increasing interest of citizens and companies in investing and crediting of real estates. Our ambition is to ensure an easy possibility for exhibitors and visitors to find correct and detailed information about the state of the real estate market in Bulgaria, about the conditions for bank credits, prices for design and construction. The Fair DVE STRECHY will ensure an opportunity for direct contacts for buying new built apartments, houses and offices in Bulgarian towns, villages and resort areas in the mountains, as well as at the Black Sea shore. It will be possible to contact many Bulgarian real estate agencies for private village houses, villas, plots of land, apartments and small family hotels.

The exhibition is organized by **АРХ МЕДИЯ**
