### Organic Basil

Our organic Basil seeds produce a herb that can be used in countless ways in food preparation. With its tangy taste it can be used with raw or cooked tomatoes and the chopped leaves can be sprinkled over cooked vegetables or added, during final cooking, to vegetable soups. Mix chopped leaves with cream cheese or add whole to salads or pasta dishes. Expect the seeds to germinate in 14-21 days.

### ***Iceland Poppy***

Grow our Iceland Poppies to produce a beautiful flower. The Iceland Poppy's petals that are thin enough to allow extra sunlight through making them seem brighter than the usual flower. Poppies are thought by the Greeks to represent fertility and good fortune. The seeds can also be harvested and used in baking. Expect the seeds to germinate in 14-21 days.
